

MATTHEW WILCOX 1006 Windmill Rd. Dripping Springs, TX 78620, Cell 510.773.2616,

matthew-wilcox@austin.rr.com

I am Matthew Wilcox and I am running for the Vice President board position and chairman of the Architectural Control Committee. Here is a bit of my history.

I moved to Sunset Canyon in Jul-06 and have enjoyed it since. I am originally from Indianapolis, but I do have deep Texas roots. My mother is 4th generation from Seguin.

I studied Chemistry and Chemical Engineering and was awarded a BS and MS from Purdue University.

I have spent the past 15 years or so as a business applications consultant working with Oracle ERP systems. In this role, I have managed projects of \$10M, and worked closely with business and technical people.

I feel have earned a reputation of inclusion and have actively sought out those who have different opinions than mine. I believe that consensus is a valuable way to accomplish tasks and goals. I also realize that compromise and trade-off is required in many cases.

My approach to the Architectural Review position would be

- 1) In Texas, we are good neighbors. Does your plan pass the good neighbor test? Have you checked?
- 2) In Texas, we believe in Landowner's rights.
- 3) Does your plan comply with your deed restrictions?

I believe that most new construction in the association can be resolved with these three steps. I believe that most plans can be responded to and turned quickly with this approach.

If you agree with this approach, I would be pleased to serve the community.
