

September 28, 2017

Dear Neighbors,

I want to express our appreciation for your patience during the construction process. We have tried to keep the streets of the subdivision clear, but I know there has been some inconvenience. Hopefully, this is an exciting time for our community as well as for our Church family.

I want to let you know in advance about a possible inconvenience this weekend. Beginning very early Saturday morning, the contractor will pour the slab for our new facility. This concrete pour necessitates additional traffic, lights, and accompanying noise. They are planning to pour early for two reasons - first, to provide a better curing environment for the concrete, and second, to keep the concrete trucks off of 290 and out of the subdivision during normal traffic hours and patterns.

Thanks in advance for your understanding. We look forward to sharing this new facility with our community.

In His Grip,

Lonny Poe
Pastor, Sunset Canyon Baptist Church
